

## BEAMZ LMM-LED MIRROR BALL MOTOR WITH LEDS

The Beamz LMM-LED is a compact battery powered motor designed for mirror balls up to 2 kg. The low-noise motor comes fitted with 18 coloured RGB LEDs for creating colourful beams when used with a mirror ball and can easily be mounted anywhere with its hanging bracket and battery powered design. Especially effective in the dark with selectable sound-active and auto mode.

- Sound-activated or stand alone
- Plastic housing
- Multitude of coloured beams
- 3x AA battery powered
